

# SEO Reseller Packages

---

We're a group of 30+ highly skilled SEO experts and Rank Fortress web designers, each taught on my standard operating procedures. The entire Rank Fortress Staff came to me wanting to know how to perform SEO, and I have taught them everything required to rank websites or GMB listing.

When I first launched my Agency initially, we had just two vas. Over the last year, Rank Fortress we've progressively grown the size of our organization to the point it is now. With a highly skilled staff each staff member is given specific tasks they are responsible for. For instance, a majority of SEO agents and SEO manage everything in SEO but not produce the desired outcomes. I personally train each staff member in tasks such as GMB articles, GMB Optimization and Technical SEO as well as Click Through Rate Manipulation On-page SEO, as well as content.

The difference in Rank Fortress staff and your average SEO agency is that I'm located in the Philippines We all live in my house with me.
