

# Translations:Biodiesel/33/en

---

People use various blends, ranging from 10% SVO and 90% petro-diesel to 90% SVO and 10% petro-diesel. Some people use it as it is, without preheating (which makes the vegetable oil a lot less viscous). Some even use 100% SVO without preheating. They often don't realize the long term effects on the engine
