

Translations:Chauffe eau solaire/161/en

- Tutorial directed by Camille Duband and Clément Chabot for the Low-tech Tour France, in April 2018.
- These thermal solar panels have been developed and optimized by Eric Lafond, alias Riké for more than fifteen years. There are many installed between the Isère and the Drôme.
- The tutorial was carried out in the collective of the Grand Moulin, in Saint Lattier in Isere.
