

Translations:Chauffe eau solaire/28/en

Grilles of similar size, slightly smaller than the doors, should be assembled. For a panel of about 2m² you generally need 3 to 4 grilles for 2 or 3 doors. In our case we have 3 grids and 3 doors.

- Assemble at least 2-3 doors of similar sizes.
- Collect at least 3 grids of similar sizes that fit on the 3 doors.
