

# Translations:Cuiseur solaire parabolique/41/fr

---

English : Safety Precautions when using a Solar Concentrated Oven

- Intense Radiation: The concentrated solar light can produce dangerous levels of ultraviolet and infrared radiation, so it is important to take protective measures for the eyes and skin, such as protective glasses and protective clothing.
- Equipment: The equipment used to concentrate solar light, such as mirror effect films, must be regularly inspected to ensure that they are in good condition and functioning properly.
