

Translations:Cuisine améliorée/4/en

The association Instituto Politecnico Tomas Katari - IPTK of Sucre works with 14 communities around Pitantora in Bolivia in order to improve Food Safety of families living in rural areas. The association builds enhanced cookers for families but also teaches them to build them. The IPTK's support is sustainable through time thanks to a real knowledge transfer: the families who know how to build cocina mejorada can then help other families build their own.
