

# Translations:Déodorant maison/16/en

---

- Food-grade **sodium bicarbonate** : Used here for its deodorising action, it can be used for a multitude of purposes (cleaning product, deodoriser, heartburn remover, teeth whitener, etc.). Made from limestone and salt. May cause irritation in some people. Can be replaced with white clay in this case. Cost ~3-4 euros/kg
- **Cider vinegar or white vinegar** : used as a deodorant. Has the ability to remove existing odours and reduce the strength of odour-producing bacteria.
