

Translations: Déodorant maison/19/en

- **Palmarosa essential oil:** Recommended for its antibacterial and antifungal properties.

 Use sparingly! The production of essential oils requires an enormous amount of natural resources. What's more, they are not suitable for everyone and can be allergenic. Test a small amount on the wrist before use, then wait 2 days. Not recommended for pregnant women or children. Don't hesitate to consult this guide: <https://lestrappeus.es/huiles-essentielles-bebe-et-famille-friendly/>
