

Translations:Enceinte passive/2/en

You've probably already seen small speakers made from boxes of crisps. The aim of our project is to test different models by playing around with the number of boxes, the layout and size of the sound outlets, and so on. At the end, we'll come up with the best models, and it will be up to you to choose the one that suits you best, based on sound quality and simplicity of design.
