

Translations:Insulated Solar Electric Cooker (ISEC)/12/en

- High Temperature Wire: If you have heavy gauge wire around you can use it, but for short runs in the amperage needed for most ISECS, 14 - 16 gauge is fine.
- Metal Shears -- Brand name "aviation shears" are the best. Ideally, you want one straight cut
- Nichrome Wire
- Aramid or other non-flammable fabric
- High Temperature RTV Silicon
- Thermal Switches
- Heavier Aluminum Foil
- High Temperature Ceramic Beads
- Silicon Tubing, High Temperature (for steam venting)
- Inexpensive Wire Stripper/ Crimper/ Cutter
- Duct Metal
- Refractory Cement
- Rockwool Batts
- Aluminum Tape
