

# Translations:Le Tuto des Tutos/96/en

---

- Remark : You can download a movie-making software as Adobe CC Première Pro, or Movie Maker. After the unrush, begins the video edition. Select all validated rushes (in this case, rushes 3 and 5). Place them in the chronological order on the video edition timeline. Listen carefully the soundtrack and cut-off non-useful sequences, in order to smooth the video.

As it's highly recommended to realize short videos, cut every gaps. This will allow as well to get more dynamism. In a second time, adjust luminosity : - Outdoors, the light can be very strong. - Indoors, the picture can take a yellow tint, because of lighting systems. Adjust tones.
