

Translations:Marmite norvégienne pour nomades/16/en

- Fold the blanket into thirds and check that this is enough to enclose your stewpot.
- Cut the blanket into three squares of equal size
- With the rest, cut two squares the width of the stewpot
- Sew these two small pieces in top of each other at the centre of one of the larger squares to make a double base for the stewpot
- Overlay the three large squares on top of each other
- Sew them together by hand around the edges
