

Translations:Marmite norvégienne pour nomades/18/en

- Cut the fabric to cover both sides of the blanket squares
- Cut two Velcro strips about 30 cm long
- Position the Velcro strips on the fabric, making sure that the two opposite sides overlap when you close the Norwegian pot on the stewpot.
- Secure the Velcro strips to the fabric with pins
- Sew them to the fabric
- Fold the fabric in half, overlapping the edges
- Sew two edges of the fabric together to make the cover
- Slide the blankets squares into the cover
- Stitch in the centre to keep the blankets in place inside the cover
- Sew the last edge of the cover. You can also sew on a zip to make the cover easier to wash.
- You can now use your Norwegian pot!
