

Translations:Masque barrière covid19 - Version rapide/26/en

Make 2 lapels on the short sides to create a hem. (To make a lapel, fold the side in on itself 2 times - you can iron this double fold if you think it's necessary - then sew with a straight stitch). This small-side hem may be difficult to make if the hem width is small, or if the fabric is stretchy, so you may prefer to sew it by hand rather than with a machine.
