

# Translations: Remorque génératrice solaire - Système électrique/58/en

---

Having found a good opportunity, we have finally opted for the purchase of a set of battery packs. Operation, maintenance and regeneration of lead acid batteries | regenerated traction batteries of 240Ah. It consists of 12 240Ah-2V batteries assembled in a series to have a voltage of 24V. This will raise our autonomy to 10 hours.
