

Translations:Savon de cendre et de graisse animale/3/en

Their business is quite successful and has advantages that can't be ignored: with 1kg of animal fat, bought for 1200 Ariary (0.33€), they produce around 30 soaps which they sell for 200 Ariary apiece. The plant matter used in the making of the soap as well as the fuel used for the preparation heating are salvaged from the waste, which does not yield any extra cost.
