

# Translations:Tawashi/21/en

---

Weave the remaining 5 rings horizontally in and out of the vertical rings. Start by attaching a ring to the top left nail on the left side of the square and pass it over the first vertical ring, under the second vertical ring, over, under and over and then hook it to the opposite top right nail on the right side of the square. Attach 4 more rings horizontally, but weaving the opposite way with each new ring: Horizontal rings 2 and 4 would be under, over, under, over, under. (see image).
